

Physics Department Seminar

Friday March 8th, 2002

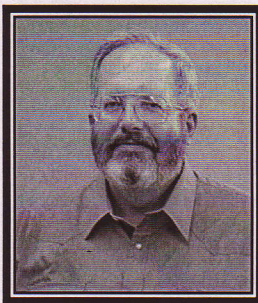

11:00am at the

UNIVERSITY CENTER LOUNGE

“The Physics of Magic Roadshow”

Mr. Dave Wall
Department of Physics
City College of San Francisco

Abstract:

Dave Wall is a trained magician and a professor of physics at San Francisco City College. While his magic tricks are delightful and amazing in their own right, he uses them to teach many ideas of physics including vector addition, Maxwell's equations, quantum tunneling and electrostatic charge. You don't want to miss the legendary “Professor's Nightmare” or the terrifying Zepf Zapper. Check out <http://www.fizziker.com/magic.htm> for more information.
