

Physics Department Seminar

Friday March 5th, 2004

11:00am in PhSc 105

“A Career in Environmental Health”

Ms. Samantha
Baumgartner
Tuolumne County

Environmental Health Department
(Physics Graduate 1999)

Abstract:

When graduate school is no longer an option, and teaching has no appeal, what do you do with your degree in physics? Consider a career in environmental health. This seminar outlines some of the advantages and

disadvantages to this career choice, as well as the requirements for entering this field.
