

Physics Department Seminar

Friday April 8th, 2005

11:00am in PhSc 105

“The Species of Origin or The Evolution of Theory”

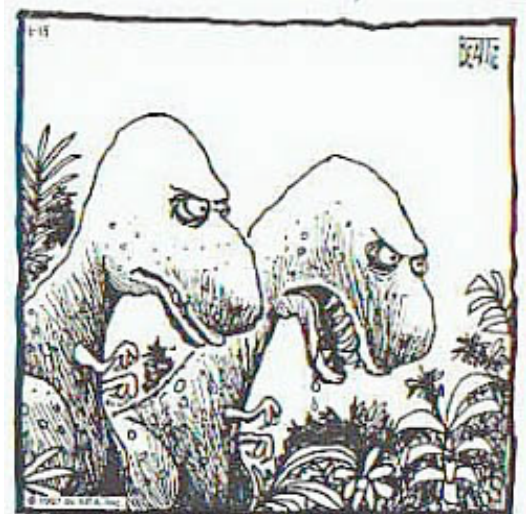

Dr. Louis Buchholtz

Department of Physics
California State University, Chico

Abstract:

I will reflect on the limits of reductionism from Landau to Laughlin with ^3He as a case study.

If only evolution had been as kind to my brain as it was to my stature, I could have understood what Landau was talking about...
