

# Physics Department Seminar

Friday February 14<sup>th</sup>, 2014

3:00pm in Physical Science 105

## “The Wild Frontier of the Scientific Entrepreneur”

Mr. Jeffery Spence

President, Innovolt, Inc.

*Physics Alum 1995*

### Abstract:

Today's business leaders' focus on what technologies and models have worked in the past has disabled them from solving problems that will likely impact the future.

Not only do our science students have better, more creative and more thoughtful answers to today's toughest business problems, but they are typically the necessary market provocateurs that ask new, more enlightening and meaningful questions.
